

ANNOUNCEMENT

BELA's Legal Assistance on Urban Environmental Issues

With a view to expand its legal assistance program, BELA has recently set up a regular cell to provide legal aid on issues concerning urban environment. Some important environmental concerns of the City would be selected from the media and from complaints forwarded to BELA. Such issues will include complaints related to open spaces, management of wastes, supply of potable water, traffic congestion, industrial pollution, air and noise pollution and so on.
